AN INEXPENSIVE PREMIUM THAT WILL SELL YOUR GOODS

You can use this Unique fern as a FREE gift to customers. It has a selling power and cost almost nothing when bought in quantities. This Miracle of Nature appeals to old and young, ideal for a green table fern. Simply place in water and within a few hours it unfurls a bright living green fern. Change water ever few days. The nature of this plant is curious, it grows in the driest parts of the Southwest, and only comes to life every time it snows or rains, then it dries up again, going to sleep until moisture awakens it up. To live a lifetime use it accordingly to the nature of the fern, (ever few days take out of water and let it die).

TRIO ON WAGON AFTER
LOOK AT JUMPING BEANS
(El Paso Herald)

Terrors of pink elephants, red snakes and other
imaginary creatures, which haunt the more alcoholic
reveries of those who find their way to the ‘wet’ side
of the Rio Grande, are nothing compared to the horrors
of athletic, commonly known as jumping beans.

Take it from those who know—a trio of effete east-
erners to whom the mysteries of borderland flora and
the strength of Juarez thirst quenchers are new.

The three easterners, delegates to the postal con-
vention, found themselves gathered about a table in a
room at Hotel Paso del Norte yesterday, after a sight-
seeing tour across the river.

The sight that confronted the three on the hotel
table was more amazing, not to say unnerving, than
any they had seen in Juarez.

For, in their absence, a jokester had placed a hand-
ful of jumping beans on the table in their room.

One long terrifying minute the El Paso visitors
watched the antics of the gymnastic beans, then the
silence was broken by three unearthly screams.

When last seen the three were said to be looking
for someone who could supply them with W. C. T. U.
pledge cards.

These beans come on in the fall. You can place
orders any time, and when they come in we will mail
at once. Sample 10c; 6 for 35c, postpaid. Write for
quantity prices.

New Water Fern

BEAUTIFUL HOUSE PLANT—REQUIRES NO SOIL

A peculiar and interesting plant that is admired by
everyone; handsome, vel-
vety, fine, fern-like foliage.
Curls up and goes to sleep
when taken out of water,
and keeps in its sleeping
or dormant state for weeks
and awakens again in a few
minutes after being placed
in water. Owing to the fact
it is capable of sleeping and
awakening repeatedly, it is
called the Opossum Fern.
Do not confuse this plant
with the much advertised

Resurrection plant. If you want one of the most satis-
factory and beautiful “Table Ferns,” something en-
tirely new, get one of these marvels of plant life. Plants
25c each; 3 for 50c; 7 for $1.00, postpaid.
